HEALS[®]

ACADEMY

Healthcare Systems Expert – Simplifying Complex Healthcare for Professionals and Communities

Dr. Prince Baawuah is a renowned speaker and healthcare systems expert known for his ability to simplify complex healthcare topics and empower audiences to make informed decisions.

With a background that includes advanced degrees in public health and certification as a Scrum Master, Dr. Prince combines academic insight with practical strategies to help healthcare professionals, organizations, and communities navigate the challenges of the US healthcare. As the founder of The HEALS Academy, Dr. Prince delivers impactful keynotes and training sessions that cover topics from health systems literacy to risk adjustment and health benefits optimization. His approachable style and expertise have made him a standout at conferences, corporate events, and community seminars, where his engaging presentations and practical insights leave a lasting impression. Dr. Prince's mission is clear: to make healthcare systems accessible, actionable, and understandable for everyone.

Speaking Themes
